

## Combining Allocation Rates

The PEEHIP Board voted to eliminate the combining allocation program. All current participating members will be grandfathered in and will experience premium rate increases that were to be phased in over a 3-year period. No married couples were able to begin combining allocations effective October 1, 2010. See rate charts below. (\*The rates in year 3 below assume no further rate increases. If rates change, the premium amounts shown in year 3 below will change.)

### Examples:

- In most cases, a **husband and wife with no other dependents** may find that it is more cost efficient to uncombine during the Open Enrollment period and change to two single policies.
- However, if the couple has each other and additional dependents covered on their family plan, they must use both allocations for the family Hospital Medical Plan and cannot use one of the allocations towards the Optional Plans. The family hospital medical premium will be a reduced rate until October 1, 2012. Couples can still purchase the Optional Plans at the normal monthly rate of \$38 or \$45 for family dental.
- If one member is enrolled in the family Hospital Medical Supplemental Plan (premium \$0), the spouse can use his or her allocation and receive the Optional Plans at no cost.
- If you decide to uncombined allocations, **the easiest, most efficient and preferred way to uncombined allocations and enroll in single hospital medical plans is online through Member Online Services (MOS).** The subscriber of the hospital medical policy (for example, the receiver of the allocation) must first change **from** family hospital medical coverage **to** single hospital medical coverage. Once you receive a confirmation page generated by MOS confirming this election, the sender of the allocation should then log in to MOS and enroll in single hospital medical coverage and receive a confirmation page confirming this election. **Your confirmation page will also provide your premium calculation.** Each member must use his/her own PID number when using the MOS system.

*Note: Members who retired on or after October 1, 2005, are subject to the sliding scale premiums which are based on years of service and the cost of the insurance program.*

Active or retired members who are not enrolled in the Hospital Medical or HMO Plan and are not combining allocations with their spouse can use their state allocation for the Optional Plans or the PEEHIP Supplemental Medical Plan. Full-time active employees will continue to receive all four Optionals at no cost and retirees will continue to receive two Optionals at no cost. If active or retired members choose to use their state allocation for the PEEHIP Supplemental Medical Plan in lieu of the Optional or PEEHIP Hospital Medical Plan, the active or retired allocation will continue to cover the full cost of the PEEHIP Supplemental Medical Plan.
